FF-2

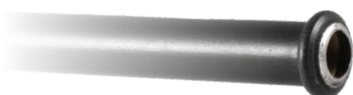

Professional Turret Style Flaring Tool

- Creates SAE Inverted and ISO Bubble Flares
- Use on 3/16", 1/4", 5/16", 3/8" and 1/2" Tubing
- Vise mounted system
- Packaged in hard plastic case with SAE and ISO dies

SAE Inverted

ISO Bubble

TB-1

Brake & Fuel Line Bending Pliers

- Easily bend, align and adjust 3/16" or 1/4" lines without kinking.
- Handy tool bends in tight radiuses right up against a tube nut aligning into threaded holes.
- Forged steel body with ergonomic heavy-duty molded grips for comfort and excellent durability.

TB-2

Mini Tubing Bender

- Mini tubing bender forms tight bends in 1/8", 3/16", and 1/4" tubing without kinking.
- Bending ranges from 0° to 120°, with reference marks at 45° and 90°.
- Smoothly bends brake and fuel line as well as other aluminum, copper, brass and steel tubing.

TR-1

Reaming and Deburring Tool

- Durable inside/outside reaming and deburring tool works with 3/16" through 1/2" tubing.
- Jaws and blades are formed from high-strength steel and are retractable into the billet steel body for safety.
- Three cutting edges ensure clean, even deburring every time.

TC-316

Ratcheting Tubing Cutter

- Innovative ratcheting tubing cutter works with any metal tube from 1/8" through 1/2".
- Compact design for confined spaces, the tool works by allowing the cutting head to rotate a full 360°.
- Automatic Spring-loaded cutter wheel works evenly and quickly to create straight cuts.
