

Ni-Copp Brake Lines MASTER DISPLAY!

NiCopp Master Domestic Line Display

Serve your customers' domestic brake, fuel, power steering, and transmission line needs with AGS's new NiCopp Master Display

Includes

- 28 of the most requested inverted flare brake lines in 3/16", 1/4", 5/16" and 3/8" diameters
- 203 total pieces in lengths from 8" to 60"
- Each line is pre-flared with corrosion resistant tube nuts on both ends
- Includes steel wall hanging rack with header

About NiCopp Lines

- Seamless nickel-copper 90-10 alloy tubing with superior rust and corrosion resistance.
- EZ bend Technology makes forming and installation a snap.
- Black oxide coated tube nuts for added corrosion protection.
- DOT approved for hydraulic and ABS brake systems, fuel, power steering, and transmission cooling line replacement.
- LIFETIME WARRANTY!
