

FST12 PEA COMPLETE FUEL SYSTEM CLEANER

PRODUCT OVERVIEW

AGS-Molecule PEA Complete Fuel System Cleaner is a high-strength fuel system cleaner formulated with a maximized concentration of Polyether-Amine (PEA)—the most advanced nitrogen-based carbon cleaning agent. This powerful formula delivers a complete fuel system cleanup and keep-clean technology with 1 full bottle use, removing harmful carbon deposits from fuel injectors, carburetors, intake ports, valves, and combustion chambers.

It restores lost power and performance while helping reduce engine knock, ping, run-on, and cold start issues. Use every 3,000 miles for optimal results. 12 oz bottle treats one full tank.

SUGGESTED USE & COMPATIBILITY

- Recommended for all gasoline engine types
- Use every 3,000 miles to maintain optimal performance
- Safe for fuel-injected, direct-injected, & carbureted systems
- Treats one full tank of gas (up to 20 gallons)

PEA Complete Fuel
System Cleaner

KEY FEATURES & BENEFITS

- Prevents hesitation, idling & spark-plug fouling
- Maximizes fuel economy & restores performance
- Cleans fuel gauge sensors for more accurate readings
- Improves throttle response & acceleration
- Compatible with capless fuel systems
- New car recommended, high milaeage strongly suggested
